LIEUTENANT TONY MALLAGH
BY W. TOWNEND
IT IS hard to get fiction stories about the present war that can hold their own against the tremendous realities coming to us in the news reports. Yet here is one that does. When you have read it you will rank it among the six best stories that have been written anywhere concerning the great European struggle and its maelstrom of human emotions. Perhaps you will call it best of them all.
The above, a complete novelette, is enough for any one issue of any magazine, but inside you will find three others—and plenty of short stories.
